## Vertical Brass Buna Temperature-Level Switch

### OVERVIEW

The Whitman Controls L10 Series Vertical Mount Brass Buna Temperature-Level Switches are highly versatile, providing the end-user the ability to control both temperature and liquid level within an application. These switches can be used to set off high/low temperature alarms along with a number of other functions. The buna float can be used in numerous liquids and can survive up to 230°F in oil. The internal thermostats are available from 100°F to 225°F in 25°F increments, with special temperatures available for O.E.M. customers. There are numerous wiring combinations and other options available to afford the end-user extreme functionality.

### KEY FEATURES

- Highly versatile with temperature and liquid level control
- Whitman Red Seal potting submersible to a NEMA 6 rating
- Extensive operating temperature range
- SPST availability

### SPECIFICATIONS

- **Minimum Liquid Specific Gravity:** 0.75
- **Liquid Temperature range:** -40°F to +180°F (-40°F to +230°F in oil)
- **Temperature Settings:** +100°F to +225°F in 25°F increments
- **Repeatability:** +/- 5°F
- **Max System Pressure:** 160 PSIG
- **Electrical Switch Rating:** 50 VA
- **Weight:** 5soz (approx.)
- **Wetted Materials:** Brass stem, buna float

### PERFORMANCE CHARACTERISTICS

	L10 Series
Fitting	1/4" NPT, 5/8" Hex
Wetted Materials	Brass, Buna, 316 SS
Electrical Ratings:	
Level Switch:	50 Volt Amps, 1/4 A at 150 VAC
Temp Switch:	8 Amps at 12 VDC, 2.6 Amps at 120 VAC
Temperature Range	-40°F to +180°F
Minimum Liquid Specific Gravity	0.75
Crush Pressure	160 PSIG
Lead Wires	20 AWG 24" PVC

\*Response time is approximately 1°F/second and may vary by media and conditions

CAUTION: Customer Media and environment must be compatible with construction materials as outlined above

## Liquid Level Information

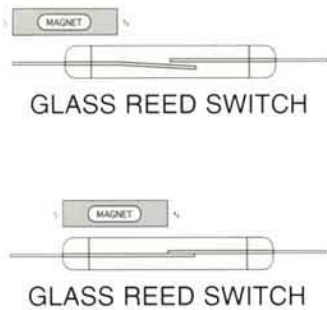

The Whitman Controls full line of quality liquid level switches are factory sealed with our **Red Seal** potting compound, allowing submersibility to a NEMA 6 rating. Every switch meets our high quality standards and rigorous internal testing requirements, providing the end user confidence in the performance of our offering. Our ISO 9001 Certified Quality Management System combined with extensive experience in related products, means greater assurance that Whitman Liquid Level Switches will deliver accuracy and reliability year after year. The National

Sanitation Foundation (N.S.F.) has approved our line of liquid level switches for use in food, food handling, potable water, beverage dispensing, and sanitary system components and equipment.

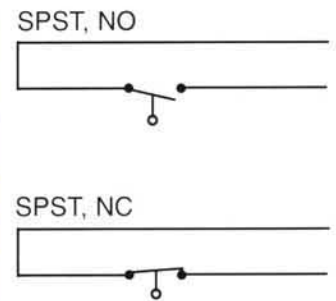

## Dry Reed Switch Information

The dry reed switch in our liquid level switches is a single pole single throw (SPST) device that may run either normally open (NO) or normally closed (NC) by reversing the float or the mounting of the switch.

Electrical Ratings – Max Resistive Load AC and DC Except As Noted:			
CONTACT RATING	VOLTS	AMPS AC	AMPS DC
50 VA	0-25	1.5	1.5
	50	0.5	0.5
	120	0.4	0.4
	150 VAC RMS	0.25	
	200 VDC		0.25

## Installation Instructions:

While our Red Seal liquid level switches are rugged, care should be given to the tightening of the switches during installation. Here are some simple reminders that will make this process easy and damage free:

**Note:** Over tightening will damage the threads and cause a leak. Threads damaged by over tightening will not be covered by our Warranty.

1. During installation, use care in tightening the connection.
2. Using an appropriate wrench, turn the switch to approximately  $\frac{1}{2}$  to  $\frac{3}{4}$  turn past “hand tight.”
3. This connection can be subjected to a pressure equal to the crush pressure of the float.

## Three Year Limited Warranty

The proven quality and reliability of Whitman Controls Corporation Pressure, Vacuum, Liquid Level, and Temperature Switches are backed by our 3 Year Limited Warranty when used in normal operation. Our complete warranty statement is provided with all quotations or is available on request.

## Liquid Level Switch Selection Guide

The chart below gives an overview of our liquid level switch product catalog at Whitman, and the functionality of each of our levels. Depending on your minimum liquid specific gravity, wetted materials, temperature range, and maximum system pressure, you will find a switch that will meet your specific needs and exceed your expectations.

### Steps Required for Identifying the Right Liquid Level Switch for your Application:

**Step 1:** Determine your Liquid Specific Gravity – Ratio of Mass of liquid to mass of equal volume of water

**Step 2:** Select a float material that is compatible with your Liquid

**Step 3:** Identify your Maximum System Pressure

**Step 4:** Select an Optimal Mounting Orientation – Horizontal/Side Mounted, Vertical / Top Mounted, Multi-Level

**Step 6:** Determine your ideal Fitting

**Step 7:** Select any Additional Options

# WHITMAN VALUE

## High Quality Switches, Fully Customizable, with an Unrelenting Focus on Superior Service

Whitman Controls has been a leader in the pressure, vacuum, and liquid level switch industry for over 40 years. The Whitman Value is built on our differentiated offering of high quality switches, and the ability to deliver product to EXACT customer specifications in two weeks or less. Off the shelf switches limit an application's functionality and versatility - Why choose a competitor switch that results in inferior performance? We take into account your application and media environment, as well as all desired specifications to design a switch that will meet performance needs and exceed your expectations. Quality switches, designed to customer specifications in two weeks or less, with an unrelenting focus on superior service - Together they add up to the Whitman Value.

## ISO 9001 Certified – We Hold Ourselves, and Our Products, to the Highest Standards

Whitman Controls is ISO 9001:2015 Certified, which gives our customers the confidence that we hold our internal processes, and products, to the highest standards of quality and rigorous testing requirements. You can be confident that the product you receive has met all necessary regulatory requirements and will outperform your desired expectations.

## Experience and Knowledge, That's Invaluable.

Whitman Controls directs its years of design and manufacturing experience toward providing value-added services to our customers. These services can help you lower costs and increase efficiency. Our engineering team will work intimately with you and your team to design a switch that will maximize application performance no matter what the environment. In addition, our exceptional mechanical abilities allow us to perform additional assemblies and deliver more complete tested systems and subassemblies.

## Diversified Product Offering – More Choices and More Savings.

We offer the most extensive pressure, vacuum, and liquid level switch offering in the industry. What does this mean for you? The ability to identify a switch that is suited perfectly for your application at a price that doesn't break your budget. At Whitman, we are constantly evaluating our input prices to identify savings we can pass along directly to the buyer. And we do all of this without sacrificing performance and quality.

## Numerous Choices and Additional Options – Have it your Way.

Need additional wire on top of the 12" standard offering? Looking for a 1/4" NPT fitting instead of 1/8" NPT? Need Teflon tape or Loctite Vibraseal on your fitting? These are just a few of the numerous additional options that are available to customers on all our switch offerings. You have a need and we have an answer. All our switches can be customized to meet any end-user requirements.

## At the Other End, Whitman Can Handle Wire Harness Assemblies Too.

As a UL and CSA approved harness assembly house, Whitman can do your next level of assembly. With our capabilities we can provide "value-added" benefits top to bottom. Whitman can guarantee leak free subassemblies and can handle a wide variety of switch mounts in customer designed systems. From T's to elbows, we will purchase and assemble parts and switches to your specifications.

## Plus we can do it all at a price that will save you money. Call or email us today and we will give you a quotation on your assembly project.

*Quality products, fully customizable, with a commitment to superior service. Together they add up to the Whitman Value.*
